NEELAY SHAH

shahnh19@gmail.com ◇ +91 9270018699
Website ◇ GitHub ◇ LinkedIn ◇ Google Scholar

EDUCATION

Birla Institute of Technology and Science Pilani, Goa, India 2018 - Present
Bachelor of Engineering (B.E. Hons.), Electronics and Instrumentation

EXPERIENCE

Ethical Intelligence Lab, Harvard Business School Jan 2021 - Present
Research affiliate (remote) | Mentor: Dr. Julian De Freitas

- Working on developing human-like and human-aware autonomous driving algorithms
- Previously worked on developing deep neural networks to model human visual cognition of social interactions

Centre of Intelligent Robotics, IIIT Allahabad June 2020 - July 2020
Research intern (remote) | Mentor: Dr. GC Nandi

- Used model compression techniques to develop compact multi-modal emotion recognition models for human-robot interaction using deep learning
- Implemented generative grasping convolutional neural networks (GGCNN) for robotic grasping

Aurum Smart Tech May 2020 - June 2020
Software development intern (remote)

- Worked on developing an image processing pipeline for QR code scanning

PUBLICATIONS/PREPRINTS

KD-Lib: A PyTorch library for Knowledge Distillation, Pruning and Quantization
Het Shah, Avishree Khare, ***Neelay Shah****, Khizir Siddiqui*
arXiv preprint
[Paper] [Code]

OPEN-SOURCE SOFTWARE

KD-Lib
[Code] [Documentation]
Co-creator

- An open-source PyTorch library for making model compression research in deep learning more accessible
- Contains implementations of algorithms from 3 families of model compression research - Knowledge Distillation, Pruning, and Quantization
- Simple and intuitive API to facilitate the use of compression techniques for custom deep learning models with few lines of code

TECHNICAL SKILLS

Programming Languages	Python, C++, Java
Frameworks/Libraries	PyTorch, Keras, PyGeNN, scikit-learn, JAX, NumPy, Pandas, Matplotlib
Operating Systems	Linux, Windows
Tools	Git/GitHub, AWS EC2, LaTeX, Vim

RESEARCH PROJECTS

Machine Learning for Satellite Navigation Feb 2020 - April 2020
Mentor: Mr. Abhijit Dey
Digital Communication Lab, BITS Pilani Goa

- Developed a deep learning pipeline to forecast irregularities in the ionosphere which cause fluctuations in satellite navigation signals
- Benchmarked machine learning models for classifying multi-path interference in satellite signals

RELEVANT COURSEWORK

University	Calculus, Linear Algebra, Probability and Statistics, Discrete Mathematics, Digital Design, Introduction to Cognitive Neuroscience, Signals and Systems, Control Systems, Data Structures and Algorithms, Object-oriented Programming
Online	Convolutional Neural Networks for Visual Recognition (Stanford CS231n), Machine Learning (Stanford CS229), Introduction to Reinforcement Learning (UCL)

MENTORSHIP

Instructor - Introduction to Deep Learning
Student-run course
Centre for Technical Education, BITS Pilani Goa

- Taught and created reference material for an introductory deep learning course intended for college freshmen

OTHER ACTIVITIES

Member
Society for Artificial Intelligence and Deep Learning

- Involved in reading and discussion sessions on artificial intelligence research

Member
University cricket team

- Participated in university level cricket tournaments

MISCELLANEOUS

Languages spoken	English, Hindi, Gujarati, Marathi, German (A1 level)
Interests	Sports (esp. Cricket and Football), International Relations, Journalism
